## **DETAILED ACTION**

### ***Introduction***

1. Applicant's amendments and remarks filed on 3/28/2008 have been entered. The specification and Claims 31 and 32 have been amended. Claims 27-29 and 31-35 are active.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. In response to the amendments, the grounds of rejection have been withdrawn and to be reinstated, if appropriate.

### ***Claim Rejections - 35 USC § 112***

4. Claims 27-29 and 31-35 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

More particularly, applicant points to Figs. 1 and 2 as support for the amendments to specification and independent claims 31 and 32. However, Figs. 1 and 2 illustrate embodiments having 4 and 5 layers, whereas claims 31 and 32 are recited as six layer composite material. Clearly, Figs. 1 and 2 are incommensurate with the structure of claimed invention, and fail to be a support for the newly added term "only one", which is inherently equivalent to "free of additional", and is new matter under the rule of *Ex Parte Grasselli et al.* – Bd. of App. 231 PQ

393, Affd. 738 F. 2d 453 (Fed. Cir. 1984), because the original specification and/or drawing lack are absent of any express support of the concept of exclusion.

Applicant must provide a clear positive support for the amendment in the next reply, or cancel the new matter.

### ***Response to Arguments***
